

Chapter 3

Addition within 10

adding with number bonds

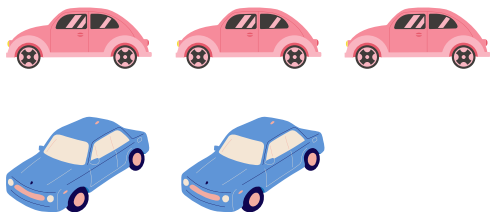

Imroatusani Nur Khasanah, S.Pd

SD ISLAM MAARIF KOTA BLITAR
TAHUN AJARAN 2022/2023

Adding with number bonds

how many toy cars are there altogether?

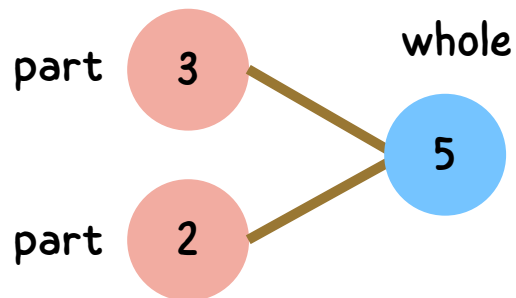

$$3 + 2 = 5$$

there are 5 toy cars altogether.

$3 + 2 =$ is an **addition equation**.

three **plus** two **equals** five.

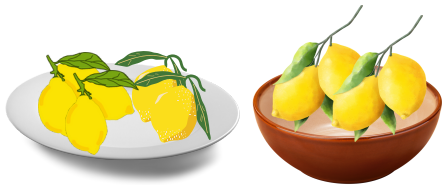

'+' means **plus**

'=' means **equal**

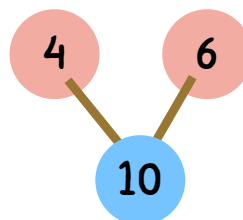

Let's Practice!!!

how many lemons are there altogether?

$$6 + 4 = 10$$

or

$$4 + 6 = 10.$$

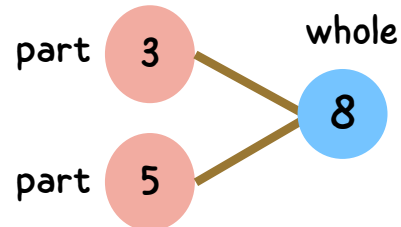

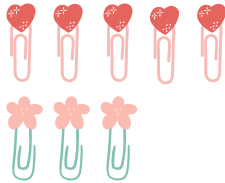

there are 10 lemons altogether.

Name :

Class:

1. how many paper clips are there altogether?

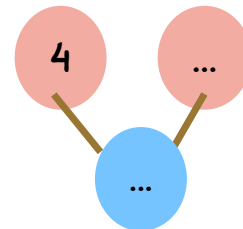

$$\square + \square = \square$$

or

$$\square + \square = \square$$

there are $\square$ paper clips altogether.

2. how many monkeys are there altogether?

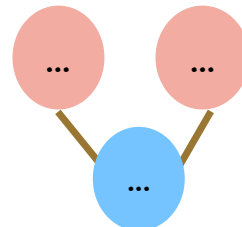

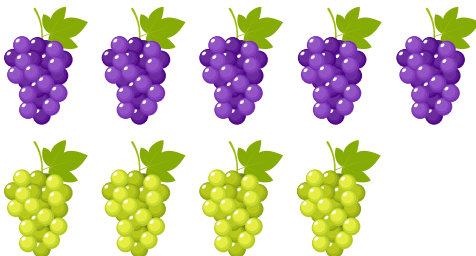

$$\square + \square = \square$$

or

$$\square + \square = \square$$

there are $\square$ monkeys altogether.

3. how many grapes are there altogether?

$$\square + \square = \square$$

or

$$\square + \square = \square$$

there are $\square$ grapes altogether.

Lembar Penilaian

4

siswa mendapat nilai 4 apabila menjawab soal penjumlahan dan mengisi angka di number bonds sama dan benar

3

siswa mendapat nilai 3 apabila menjawab soal penjumlahan dan mengisi angka di number bonds benar, namun berbeda angka

2

siswa mendapat nilai 2 apabila menjawab soal penjumlahan benar dan number bonds salah, ataupun sebaliknya

1

siswa mendapat nilai 1 apabila mencoba menjawab soal penjumlahan namun masih salah
